OVERVIEW

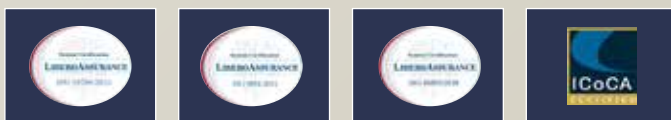

NBS has been providing asset protection to organisations operating across the Middle East and Africa since 2004, we pride ourselves on service delivery and a relentless approach to continuous improvement and training.

NBS is a company which understands its position within the grand scheme of

CLIENT OPERATIONS.

We understand and promote a culture where our service is one that remains flexible, bespoke to each client and one that does not hinder or attempt to lead client activities.

NBS is certified to the highest security management ISO standards that you would expect from a leading private security company, these standards include ANSI:ASIS PSC 1.2012, ISO 18788 and ISO 9001.

NBS, global experience and reach.

NBS is a locally owned private security company with its headquarters in Basra City, Iraq. It has global experience and reach with a variety of successfully delivered projects.

Countries

UK
Haiti
Libya
Afghanistan
Iraq
UAE

PROFESSIONAL AND ETHICAL

NBS is fully licensed by the Iraq government within the Ministry of Interior, Ministry of Trade, Ministry of Finance and the Ministry of Labour and Social Affairs to conduct its operations legally.

Its ethical approach includes being externally certified to endorse its ethical stance through the International Code of Conduct Association for Private Security Providers, with the aim to provide a service with the highest ethical standards embedded throughout its operations.

Experienced Management

The NBS senior management team has a combined 85 years' experience within the austere environment security industry, which includes mobilising and executing some of the largest and most complex security projects in the region. Our clients rest assured and are confident in the NBS understanding of the security environment, through rigorous testing, evaluation and auditing of security plans, policies and procedures.

Responsiveness and Reliability

NBS responds to its clients instantly, we provide decisive and quick decisions where required, and can be relied upon in any given event through our tested and proven response plans.

Social Performance

Respecting and engaging with the local communities where our projects operate is fundamental to their success. NBS prides itself on its social performance history and continues to commit its resources to pro-actively engage communities.

NBS offers asset protection services

secure embassies, base camp static sites, remote operating sites, and transportable sites such as drilling rig operations.

Security Consulting and Security Information Reporting

NBS clients, as part of our service and at no additional cost, receive comprehensive daily/ weekly and real time reporting of security incidents and relevant information. In addition to this, NBS provide weekly updated security assessments, which collaboratively can be utilised for decision making. Other services include but are not limited to:

- Security Vulnerability Assessments
- Risk Assessments & Security Analysis
- Risk Management Consulting
- Crisis Management Planning
- Hostile Environment Awareness Training (H.E.A.T.)

Dynamic Asset Protection

NBS has a large fleet of armoured vehicles at its disposal, this includes armoured buses, minibuses, land cruisers and pick-ups. NBS can support its clients on a permanent basis or as an adhoc service with:

- Personal Security Detail (PSD)
- Convoy Escort Teams (CET)
- Executive Protection
- Personal and Vehicle Satellite Tracking
- Ambulance and Medical Support

Static and Remote Site Security

NBS offers asset protection services that secure embassies, base camp static sites, remote operating sites, and transportable sites such as drilling rig operations.

MEDICAL SUPPORT

CASE STUDY

Major International Oil Company Project, Iraq.

Contract value: \$43m USD

Scope:

Mobilise thirty (30) mobile protection teams within 45 days, configured as three (3) x B6 armoured land cruisers with two (2) expatriates as team leader and 2ic medic.

90 x Armoured vehicles with the majority 2024 & 2025 models

70 x Expatriates

188 x Home country nationals

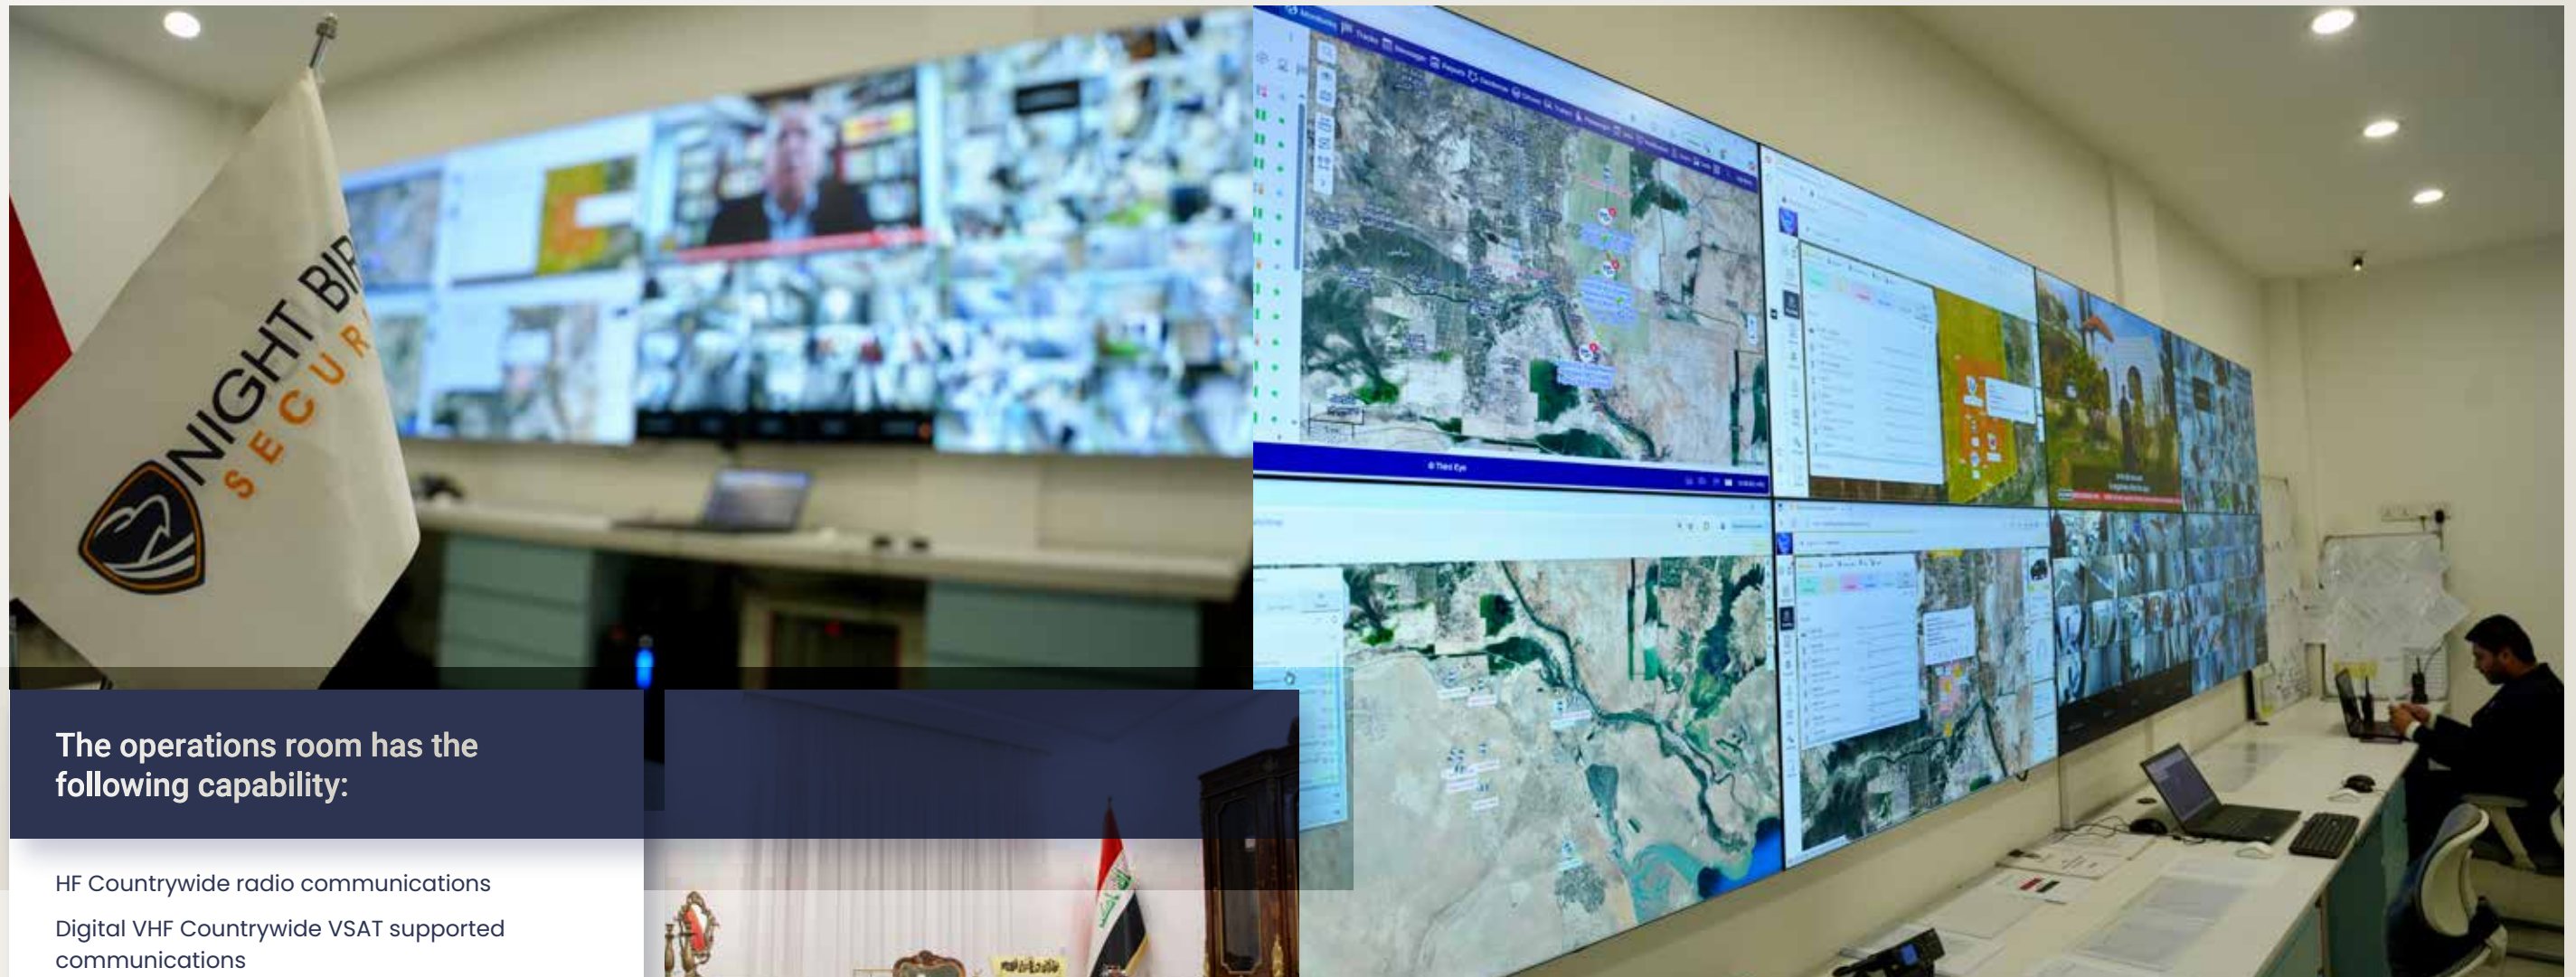

Outcome:

Client fully accepted mobilisation to contract scope of services for the operations centre and all teams on day 43, with a phased mobilisation offered over a 4-day period due to early mobilisation of assets and personnel, exceeding expectations.

Since then a further 7 high occupancy teams have been mobilised to the project.

OPERATIONS ROOM

The operations room has the following capability:

- HF Countrywide radio communications
- Digital VHF Countrywide VSAT supported communications
- Satellite phone communications
- GSM
- IVMS Monitoring platforms
- 24/7 Expatriate manned
- Emergency response systems proven and tested
- Mapping
- C3i Platform

The Ops Rooms provide operational over watch and incident management as well as control of project operations

TRAINING & COMPLIANCE

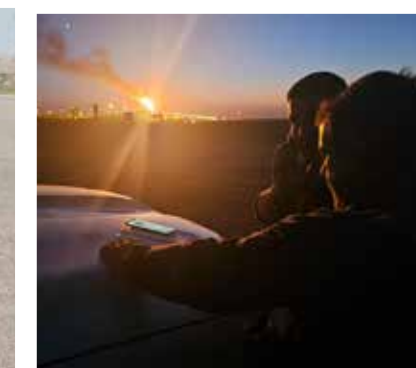

Our commitment to training does not stop once the initial courses have been completed, we implement a full internal verification system to ensure continuation training is evaluated, tested and completed to the required standards.

WHAT OUR CLIENTS SAY ABOUT US...

LUKOIL

NBS serves as the primary security provider for LUKOIL Mid-East Ltd. (LMEL), a key entity within the LUKOIL Group responsible for managing oil and gas exploration and production projects in Iraq. Since 2017, NBS has been delivering mobile security services for LUKOIL's operations across Iraq, including VIP protection services in Baghdad. Throughout the engagement, NBS has deployed up to 30 mobile security teams of various configurations, such as: Toyota Land Cruiser patrol teams, Heavy-capacity Coaster teams, VIP protection teams utilizing Toyota Land Cruiser, GMC, and Mercedes vehicles.

NBS operations are critical for protecting the West Qurna-2 field, which holds approximately 15 billion barrels of proven oil reserves. This field is a highly strategic asset for both Iraq and LMEL, with LMEL's operations contributing nearly 9% of Iraq's total oil production. LMEL's activities extend across the hydrocarbon value chain, including exploration, engineering, procurement, construction, and installation. NBS ensures the highest security standards. Throughout our partnership, there has not been a single security incident. This success is achieved by deploying highly professional and experienced personnel equipped with high-quality security equipment.

A key component of our effectiveness is close coordination with Iraqi security forces. Furthermore, at the West Qurna-2 field, NBS maintains proactive engagement with local tribal sheikhs. This dialogue is essential for ensuring stability and a calm operating environment for LUKOIL's activities.

The current contract for these comprehensive security services is valid through December 2026.

 Location: Baghdad, Iraq POP: Dec 2015 Provided Mobile Security Services to GIZ in various locations within Iraq, including Baghdad and Basra.	 Location: Baghdad & Mosul, Iraq POP: October 2018 Recently began provided mobile security services for Fichtner in Baghdad, and Mosul and the surrounding areas in support of the reconstruction of the Iraq electrical infrastructure. Location: Najaf and Jabala, Iraq
PoP: Mar 2008 – Jul 2009
Provides MST and static security for the US Air Force Center for Engineering and the Environment construction project in Najaf and Jabala, Iraq.

AWI-AD-HOC SERVICES

NBS successfully mobilized four (4) PSD teams in phased deployments to support AWI on ad-hoc tasks at short notice over a two-month period. Our operations team worked closely with AWI to deliver flexible and responsive security solutions, ensuring uninterrupted support to AWI's ongoing operations. This included enabling the continuation of AWI's oil & gas construction, power generation, and maintenance projects across the North Rumaila and Basra regions. Through careful coordination, rapid mobilization, and adaptive security measures, NBS ensured AWI's ability to maintain operational momentum under challenging timelines.

ANTON OIL WQ2

NBS has successfully mobilized in support of Anton Oilfield Drilling, providing both static and mobile security teams to enable the commencement of drilling operations in the WQ2 oilfield. To meet Anton's operational requirements, NBS deployed: Heavy-lift capacity coaster bus teams Toyota Land Cruiser mobile teams and Static site security for the drilling clusters. This mobilization was achieved through careful negotiations and the implementation of cultural awareness programs with local landowners in the WQ2 area, ensuring strong community relations and operational acceptance. By combining technical capability with cultural understanding, NBS delivered a tailored security solution that safeguards personnel and assets while enabling Anton Oilfield Drilling to achieve its project objectives.

Location: Cite Soleil, Haiti
PoP: Mar 2010 to Sep 2010
Provided security and logistics for USAID reconstruction efforts in Haiti immediately after the 2010 earthquake. Worked closely with local population to gain support for the project.

Location: Baghdad and Alhamia, Iraq
PoP: Dec 2006 – Jul 2009
Provided MST and static security for the two ITSI construction sites in Baghdad and Alhamia, Iraq. In addition, support the client with accommodation and office security for the Baghdad headquarters.

ÇALIK ENERJİ WQ2

NBS successfully mobilized security services in support of Çalık Enerji, one of the world's leading energy companies. Midway through a key project in Iraq, Çalık Enerji's existing security provider withdrew from the country, creating an urgent operational gap. At short notice, NBS stepped in and rapidly deployed both static and mobile security assets, ensuring the continuity of operations without interruption. Through our swift response, flexible mobilization capability, and tailored security solutions, NBS enabled Çalık Enerji to continue delivering its valued services, safeguarding both personnel and assets during this critical transition period.

Location: Port-Au-Prince, Haiti
PoP: Mar 2010 to Jul 2010
Provided personnel and convoy security for the delivery of Haiti Recovery Group assets in Haiti for reconstruction efforts immediately after the 2012 earthquake. Provided static security for man-camp.

Location: Rustamiah and other, Iraq
PoP: Sep 2004 – Jul 2009
Provided MST and static security for Tetra Tech's construction sites, offices and life support area of Rustamiah, River Road, Baghdad and Erbil Villa compounds.

NMDC- AL FAO AD-HOC SERVICES

NBS successfully mobilized two (2) mobile security teams in support of NMDC Abu Dhabi's first operations in Iraq, providing security for their surveying activities at Al Fao and Khor Zubair waterways. To ensure NMDC's mission success, NBS deployed both onshore and offshore security guards, adapting seamlessly to operational requirements. This enabled NMDC to safely and effectively survey over 90 km of waterways, marking a critical milestone for their entry into the Iraqi operating environment. By leveraging our local expertise, rapid mobilization capability, and flexible security solutions, NBS ensured NMDC's ability to achieve its objectives under challenging conditions.

'NBS is providing a very high standard of service and completed a substantial mobilisation of services for DPAB, on completion of the mobilisation Night Bird Security successfully passed all BP audits and continue to do so. DPAB would highly recommend Night Bird Security to any company operating in Iraq to provide security services for them'

Location: Iraq
PoP: Oct 2008 – Jul 2009
Provided MST and convoy security services for a Border Forts and Wells Project in various regions of Iraq. Successfully secured all personnel and materials with few security incidents.

Location: 7 Sites, Iraq,
PoP: Feb 2006 – Dec 2006
Provided MST and static security at 7 of Washington Group's sites, located throughout Iraq, also providing MST services and acting as a dedicated Emergency Response Team.

IRATEC**IRATEC**

Location: Basra, Rumaila, Iraq

- POP: 20 July 2022 - present
- Provide Mobile and Static Security Services
- IRATEC renewed the contract with Night Bird Security Company, being very happy with the services provided, both static and Mobile Security at the highest standards.

**BONATTI PROJECT WQ2**

NBS has successfully mobilized four (4) mobile security teams to support Bonatti International, a leading international contractor serving the energy industry since 1946. Bonatti's operations include EPC and standalone construction of plants and pipelines, operation & maintenance, and production enhancement services. For this project, NBS provided two distinct security task groups: Heavy-capacity coaster teams Toyota Land Cruiser mobile teams The mobilization was completed efficiently, with a strong emphasis on building and maintaining positive relationships with tribal leaders in the WQ2 operational area—an essential factor for ensuring long-term operational stability and community acceptance. This project is scheduled to run for up to 18 months, during which NBS will continue to deliver flexible, adaptive, and community-aware security solutions to ensure the uninterrupted progress of Bonatti's energy operations.

The Baghdad «International Zone» IZ (also known as the Green Zone) is one of the most heavily fortified areas in Iraq, and has historically housed government buildings, embassies (including the U.S. Embassy), and key military operations centers. Security in this zone is layered and intense, especially due to the area's high-value targets and history of attacks.

- **Checkpoints and Roadblocks:** All entry points have multiple checkpoints, manned by Iraqi Security Forces (ISF).
- **Vehicle Screening:** Vehicles undergo thorough inspections using scanners, sniffer dogs, and bomb detection equipment.
- **ID Checks:** Only individuals with proper credentials (e.g., IZ badges, military IDs) are allowed in
- **Counter-Intelligence Operations:** Continuous monitoring of potential insider threats or infiltration attempts
- **Electronic Surveillance:** Includes cell signal jamming, biometric access control, and network surveillance
- **Rocket and Mortar Defenses:** C-RAM (Counter Rocket, Artillery, and Mortar) systems may be deployed in case of attack

NIGHT BIRD SECURITY (NBS) DELIVERS A MULTI-LAYERED SECURITY SOLUTION DESIGNED TO ENSURE THE SAFETY AND CONTINUITY OF OPERATIONS FOR ITS CLIENTS. OUR PROTECTION STRATEGY COMBINES ARMED ESCORTS, 7/24 SURVEILLANCE, AND SECURE INFRASTRUCTURE TO MEET HIGH-THREAT ENVIRONMENT STANDARDS. THE NBS GUEST VILLA 7/24 OPERATIONS ROOM IS A CRITICAL SECURITY HUB DESIGNED TO ENSURE CONSTANT VIGILANCE AND IMMEDIATE RESPONSE TO ANY POTENTIAL THREAT OR INCIDENT.

**NIGHT BIRD
SECURITY**

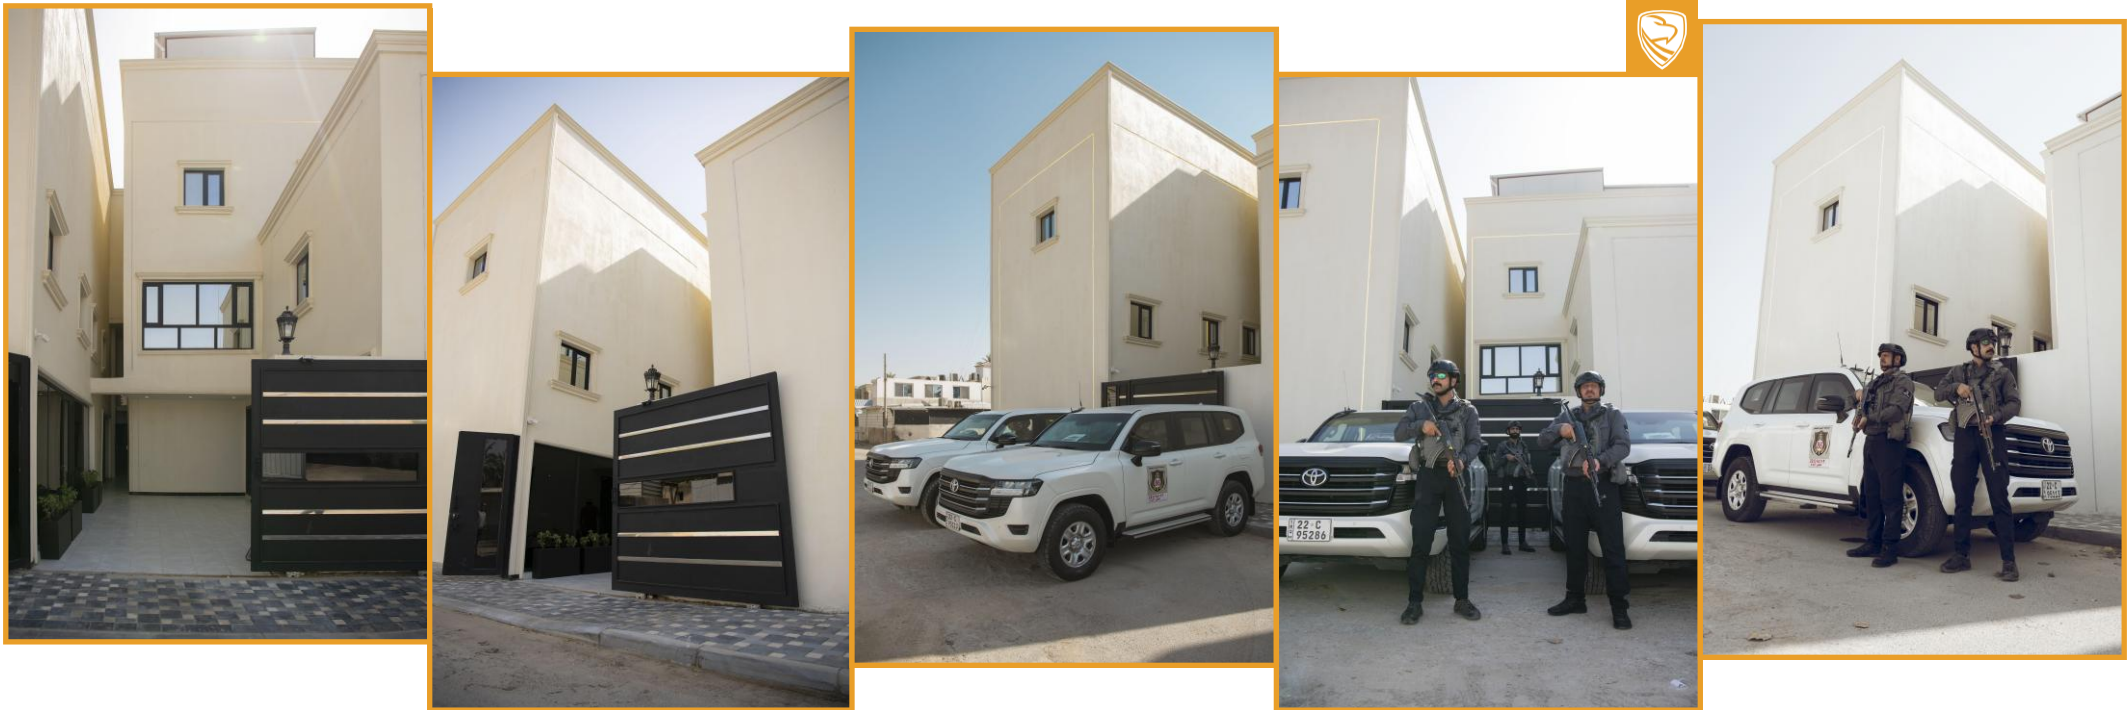

CONTINUOUS MANNED OPERATIONS

- **24/7 Staffing:** The Operations Room is continuously manned by trained security operations personnel, ensuring no lapse in situational awareness or response capability
- **Highly Trained Personnel:** Staff are skilled in incident detection, threat assessment, emergency coordination, and escalation protocols.
- **High-Definition CCTV Network:** Real-time video feeds from across the Guest Villa and perimeter areas are monitored continuously.
- **Integrated Command Dashboard:** Centralized monitoring of surveillance, alarms, and access control systems.
- **Geospatial Awareness:** Live digital maps display the location of assets, personnel, and any incident developments.
- **Instant Alerts:** Automatic alerts for fire, intrusion, unauthorized access, and other predefined triggers.
- **Quick Mobilization:** Immediate dispatch of security teams or escalation to emergency responders based on real-time threat assessment

ACCESS CONTROL & PERIMETER SECURITY

- **Secure Access Systems:** Access controls monitoring and restricted entry to sensitive areas.
- **Visitor Management:** Real time tracking and verification of guest and personnel movement.
- **Perimeter Intrusion Detection:** Sensors, alarms, and surveillance ensure perimeter integrity.

NIGHT BIRD SECURITY

- Access inside the interior of the NBS Guest Villa is highly restricted and protected by advanced heavy bulletproof metal doors, forming a critical layer of the villa's security architecture.
- **Ballistic-Resistant Construction:** The doors are engineered with multi-layered steel and composite materials, certified to withstand high-caliber firearms and forced entry.
- **Blast Resistance:** In addition to bullets, the doors are designed to absorb and deflect explosive shock waves, enhancing occupant protection in hostile scenarios.

The NBS Guest Villa is equipped with fully operational on-site security accommodations to support a 7/24-armed response capability, ensuring immediate protection and safe evacuation of clients in any scenario. These provisions are a critical component of the villa's high-security infrastructure and readiness posture.

DEDICATED SECURE PARKING AREA

The NBS Guest Villa features a designated, secure parking zone for both resident vehicles and tactical response units.

Located within the inner perimeter of the compound, the parking area is fully enclosed and monitored 24/7 to ensure complete safety

- **Surveillance Coverage:** High-definition CCTV cameras cover all vehicle parking bays and driveways, with feeds monitored live from the Operations Room.
- **Separate Zone for Guests:** The NBS Guest Villa includes a dedicated, secure area specifically designed to allow the VIP guests to be seated in the vehicle inside a controlled, comfortable, and protected environment. This area serves as a temporary waiting space
- **Always on Standby:** Vehicles are maintained in a ready-to-move condition, with fuel, equipment, and navigation systems prepped for immediate action.

Controlled buffer zone between the public road and the villa's inner security perimeter.

The NBS Guest Villa features a secure outer parking zone designed to manage guest arrivals, departures, and waiting periods while maintaining tight security protocols
